Sara - I just wanted to confirm what we spoke about this afternoon. You indicated that a few more days were needed to make sure the response was complete, and I agreed it was okay to extend the deadline for submission to on or before this Friday, August 31, 2012.

We also spoke about a large number of bid documents that ATK has available covering the approximate time period from 1963 to 1997, regarding auctions in which Mr. Rahkonen or his company bid on items being sold by ATK's predecessor, Morton Thiokol. In response to this information request, I agreed it was okay to just provide the documents that were already scanned and an outline prepared by ATK showing what other documents are available regarding these events. Then, if we think we need to see those other documents, we can make an additional information request.

Finally, you indicated that ATK's response would be in electronic format. We are fine receiving the response in that format.

Please let me know if I misstated anything we discussed today.

Thanks

Ms. Peterson - As we discussed in our phone conversation this afternoon, EPA is fine with and agrees to

ATK's request for a 30 day extension to the deadline for submitting the response to EPA's 104(e) information request. It appear by our records the ATK received the information request on June 29, 2012, so with the 30 day extension, ATK's response is due on or before August 28, 2012. If you feel you need a written confirmation other than this e-mail, please let me know and I will prepare a letter.

Thanks
